

Light Duty Unit Heater

The ULI is ideal for commercial areas, garages, warehouses, basements, entrances, etc. The unit comes with universal mounting brackets for either ceiling or wall installation. This allows for 360 degree rotation of the unit.

Standard Construction Features:

- Available in almond epoxy/polyester powder paint finish.
- Cabinets are constructed of 20 gauge steel.
- Units have adjustable louvers to direct airflow.
- Temperature protection is accomplished with an automatic reset thermal cutout.
- The motor is permanently lubricated and totally enclosed.
- Heating elements are made of stainless steel.
- The unit contains a 300 CFM fan (51 dBA).
- Built-in adjustable thermostat.
